To Whom It May Concern,

This letter is to serve as recommendation for Peak Building Services.

Manuel has managed our building services for over 12 years.

Of the quality of the maintenance work; we commend them in quality of cleanliness and appearance. Another outstanding fact is that the job is done consistently on schedule.

With children, or perhaps better said in a school environment, there's so many unexpected clean up needs; from disinfecting a classroom when a child was ill, toilet or sink overflows in restrooms, or drips down hallways from student beverages or other spill, all of which collect dirt and grit. When these unexpected needs, which are beyond the hired janitorial services, are consistently met with timely help and a proprietary response where possible – our testimony is these folks are outstanding.

Additionally, we've had a myriad of needs from annual deep cleaning projects, tile care that involves the whole gamut of strip, restore and waxing, to dispenser needing repair, or replacing bulbs, touch up wall work and more. It's been an amazing experience to see the diverse and comprehensive work Peak Building Services provides.

Personally, I find Manuel Gomez as a quiet spoken man who walks with authority and integrity in his ways. He is diligent and prudent in all his work and you can see the wisdom resting on his shoulders in discerning the work and the work needs.

Our recommendation couldn't be higher to employ the services of Peak Building Services.

Sincerely,

Jackie Beattie, Office Manager
